DUN & BRADSTREET #: 784133113

<p>SERVICES PROVIDED: Systems Engineering, Electrical, Mechanical, Chemical, and Civil Construction Management • Facility Maintenance • Warehouse Operations • Explosive Blast Mitigation • Testing & Analysis • Software/Hardware Development • Anti-Terrorism Training • Human Factors, Configuration Management • Secure IT Solutions • CBRNE Testing</p>	<p>SME CERTIFICATIONS: Environmental Management • HAZMAT • Industrial Safety • Radiation Specialist • Heavy Equipment • Professional Civil Engineering • IT Security • Explosive Safety • Risk Analysis & Assessment • Military Operations</p>
---	---

ScaVet Technologies LLC (SVT) was established in 2006 as a Certified SDVOSB. SVT provides **Professional Engineering** that includes: Program Management, Facility Management, System Testing, Training, and Security Services for Department of Homeland Security (DHS), Transportation Security Administration (TSA), Federal Aviation Administration (FAA), Department of Defense (DoD), Department of State (DoS), Army Corps of Engineers, SRA International, Enroute Computer Solutions, Lockheed Martin, McKean Defense, Applied Research and Associates (ARA), Battelle, Mistral Security and Technical Ordnance.

Research Developmental Test & Evaluation (HSTS04-10-D-CT7006, DHSTS04-10-D-CT7007, IT&E GS23F-0038L/ HSHQDC-09-F-00166, CRT GS23F-0038L HSHQDC-08-F-00136) Over 20 years of Computer Systems, Electrical, Mechanical, Human Factors, and Chemical testing, SVT provides professional T&E, I&I, V&V, systems design, software/hardware development, configuration management, complete life cycle testing, secure IT, and deployment and testing of systems including Explosive Detection Systems and Air Traffic Control systems.

Operations Management and Logistics (HSHQDC-12-F-00145, DFACT-10-D-0008, HSHQDC-09-F-00157) Over 20 years of Government Construction Operations experience, Test Facility Logistics and Maintenance, and Airport Management, SVT designs, builds, and manages facilities for Explosive Detection Testing, runway lighting test area, material sub-base test facilities, Ammo Supply Points, and Live Fire Ranges. SVT provides Environmental Safety personnel, certified and qualified HAZMAT and Radiation specialists, facility maintenance personnel and engineering techs to include electricians, plumbers, and security for the Transportation Security Laboratory and Federal Aviation Administration.

Blast Mitigation (HSTS04-05-D-DEP005, HSTS04-07-F-DEP285, Technical Ordnance, Mistral Security, Corps of Engineers) SVT performs Structural and Material Engineering for the design of mitigation techniques and devices, blast simulators, and blast safety equipment. SVT works with TSA's Explosive Standards Working Group.

Training (NJ State Police, NJ SWAT, Other Government Agencies, Military) SVT trains organizations in Anti-Terrorism, IEDs and HMEs, Master Breach, Weapons, and more. SVT instructs techniques for motorcade sweeps, physical & personnel security, Risk Analysis and Mitigation/Crisis Management. SVT's reach back extends into the Military and Other Government Organizations for SME's.

COMMERCIAL SVT works with many different engineering firms and commercial companies in Roadway design and development, acreage impalement, salt water run-off, retention ponds, city and municipal street work including design and repair sewer and water lines, boring and pulling cables, curbs, and sidewalk.
